EXPERIENCE

Android Developer Intern

Ensatus Technology India Private Limited, Bangalore

- As an Intern, I am responsible for designing and developing Android applications.
- Working closely with the development team, I learned how to create prototypes with Adobe XD and how to develop Android-based applications using Java.

PROJECTS

Hotel billing and management system (02/2018 - 05/2018)

- The project allows *hotel* manager to handle all *hotel* activities online including room booking, staff management and bill generation features
- Tech Stack:** Java, MySQL, IDE NetBeans

A cocktail Approach for Travel Package Recommendation (06/2019 - 08/2020)

- A cocktail approach is developed for personalized travel package recommendation by considering some additional factors including the seasonal behaviors of tourists, the prices of travel packages , and the cold start problem of new packages . better than traditional techniques.
- **Tech Stack: HTML, CSS, MySQL**

Trucom-Shopper (03/2021 - 06/2021)

□ Trucom is a platform to make it simple for retailers and customers to interact. The customers are now able to purchase items from the nearby trusted stores. So the local stores will not lose consumers to popular online retailers such as Flipkart and Amazon. **Tech Stack** – Android Studio, Java.
